INTRODUCTION

Thank you for purchasing your vehicle from us. As a part of our commitment to our customers, this Lotus Approved warranty product has been designed to help our customers avoid any unexpected motoring costs in the future.

This warranty is not an insurance product but a guarantee provided directly by Lotus Cars.

CONTRACTUAL AGREEMENT

The Lotus Approved Warranty is administered by Lotus Warranty Services; a trading name of Car Care Plan Limited. Car Care Plan is one of the UK's leading warranty administration specialists from whom you will receive a first-class, reliable administration service that handles claims quickly and efficiently.

Lotus Assistance is administered by Call Assist Ltd, Axis Court, North Station Road, Colchester CO1 1UX.

This handbook explains how your warranty and assistance works and the benefits you now enjoy as a customer. Always keep this handbook somewhere safe, as you will need this to make a claim.

Please ensure you fully understand the terms and conditions relating to the warranty and assistance, in particular the vehicle servicing requirements and the procedure for requesting a repair under this warranty.

When you receive your Validation Certificate, please check that it contains the correct details and tell us immediately if there are any mistakes.

IMPORTANT NOTE

Please note that the level of cover applied to your Lotus Approved vehicle is outlined on your Validation Certificate. To understand the cover applied, please refer to the relevant section in this handbook.

COVER PROVIDED

For vehicles up to 10 years/100,000 miles at time of warranty purchase

The Lotus Approved Warranty covers mechanical or electrical failure defects to all factory-fitted components of the vehicle, with the exception of the exclusions listed in “What is Not Covered” section on page 8.

MAXIMUM CLAIM LIABILITY

The most we will pay for each individual claim is up to the vehicle purchase price. This will include VAT in total for each claim and the cost of vehicle recovery and/ or vehicle hire charges. In the event of more than one claim arising during the warranty period, we will pay up to the vehicle purchase price in aggregate.

We will not pay the VAT part of any claim if you are registered for VAT. If your claim is valid, we will pay for fault diagnosis charges subject to a maximum of £75 per claim including VAT or one hour of labour, whichever is lower.

Your Lotus Approved Warranty covers almost all mechanical and electrical parts of the covered **vehicle** against **mechanical and electrical breakdown**. It also covers the cost of labour needed to fit or repair the parts.

Mechanical or electrical breakdown is the failure of a **vehicle** part, causing it to suddenly stop working, for a reason other than wear and tear, normal deterioration or negligence. Damage caused by the **vehicle** overheating is not considered a **mechanical or electrical breakdown** under the terms of the warranty.

You are covered only for the parts described in this document. **Your** warranty does not cover more than the manufacturer’s list price for parts.

There is no restriction to the number of claims **you** can make, but the combined total of all **your** claims cannot be more than the value of the **vehicle** at the time **you** bought it.

Repairs must not start before the administrator has approved them.

- Burnt out, sticking or pitted valves
- Damage resulting from the failure of a timing belt which has not been replaced as per the manufacturer's recommendations (proof required)

Please note that oil, oil filter, gaskets, anti-freeze and brake fluid required due to the failure of a covered component are covered as part of a valid claim.

This warranty does not cover oil, oil filters, gaskets, antifreeze and brake fluid if they are needed due to the failure of a covered part.

EXHAUSTS AND CATALYTIC CONVERTERS

Exhaust systems are covered for the sudden or unforeseen failure of any weld or joint. This warranty does not cover modifications (other than those fitted by the manufacturer), or accidental damage caused by speed humps or kerbs and any type of corrosion. Catalytic converters are covered as follows.

This warranty will cover the cost of replacing the **vehicle's** catalytic converter (or converters), if the **vehicle** fails to meet the relevant in-service exhaust emissions standard following a test of its exhaust gas, and:

- the catalytic converter (or converters) is no longer serviceable;
- **you** send the results of the failed test to **our** claims department when **you** ask the **administrator** to authorise the repair; and
- after the catalytic converter (or converters) is replaced, **you** send a results print-out from a successful test to **our** claims department with the repair invoice.

This benefit does not cover the cost of replacing the catalytic converter (or converters) if the failure is due to a collision, accidental damage or the wrong fuel being used in the **vehicle**.

ELECTRIC VEHICLES

We understand that the changing technology within motor vehicles can seem complex and confusing. **We** are committed to making sure that all of **our** customers feel comfortable with their **vehicle** warranties and are confident that **we** understand the changing technology and, most importantly, reflect that in **our** products. **We** are pleased to confirm that if **your vehicle** is fitted with any of the following parts, they are covered by **your** warranty.

We have added this section to cover the parts that are unique to plug-in hybrids, self-charging hybrids and full electric vehicles.

As well as the high level of cover listed throughout this warranty document, there are a number of unique parts in **your vehicle** that relate to the electric power, and some of the extra items covered under this warranty are listed below. These items may or may not be fitted to **your vehicle**, depending on the type of electric drive **you** have chosen (for example, full electric, hybrid or self-charging hybrid).

DC/DC CONVERTER: This device converts higher-voltage DC power from the traction battery pack to the lower-voltage DC power needed to run **your vehicle's** accessories and recharge the auxiliary battery.

ELECTRIC VEHICLES CONTINUED

ELECTRIC VEHICLES CONTINUED

ELECTRIC TRACTION MOTOR: Using power from the traction battery pack, this motor drives the vehicle's wheels. Some vehicles use motor generators that both drive the wheels and charge the battery.

ONBOARD CHARGER: This device takes the incoming AC electricity supplied from the charge port and converts it to DC power for charging the traction battery. It also communicates with the charging equipment and monitors battery characteristics such as voltage, current, temperature and the level of charge while charging the pack.

POWER ELECTRONICS CONTROLLER: This unit manages the flow of electrical energy provided by the traction battery, controlling the speed of the electric traction motor and the torque that it produces.

THERMAL SYSTEM (COOLING): This system maintains the proper operating temperature range of the engine, electric motor, power electronics, and other parts.

BATTERY (ALL-ELECTRIC AUXILIARY): In an electric-drive vehicle, the auxiliary battery provides electricity to power the vehicle's accessories.

TRACTION BATTERY PACK: This pack stores electricity for the electric traction motor.

TRANSMISSION (ELECTRIC): The transmission transfers mechanical power from the electric traction motor to drive the wheels.

ELECTRIC GENERATOR: This generates electricity from the wheels while braking, transferring that energy back to the traction battery pack. Some vehicles use motor generators that both drive the wheels and charge the battery.

CHARGE PORT: The charge port allows the vehicle to connect to an external power supply in order to charge the traction battery pack.

BATTERY RANGE ANXIETY (FULL ELECTRIC VEHICLES ONLY)

If **your** electric **vehicle** runs out of charge, **we** will take **your vehicle, you** and up to five **passengers** to either the nearest charge point, **your** home address or **your** planned destination, whichever is nearer.

APPROVED

ELECTRIC VEHICLES CONTINUED

Please note, there is a limit of two call-outs throughout each yearly warranty period.

TERMS AND EXCLUSIONS FOR ELECTRIC VEHICLES

TRACTION BATTERY PACK: A traction battery pack is made up of several battery modules that are mounted together in a frame. Each module is made of many cells mounted together.

The batteries in an electric vehicle undergo cycles of 'discharge' (the use of stored electrical energy when the vehicle is being driven) and 'charge' (when the vehicle is plugged in). Repeating this process over time affects the amount of charge the battery can hold. This decreases the range and time needed between each journey to charge.

While the manufacturer's warranty for the electric **vehicle** battery is in place, that will take precedence over this extended warranty if **you** need to claim for a sudden and unexpected failure.

Charging and discharging a battery will cause gradual deterioration of the battery over time. This warranty covers

the main **vehicle** battery for sudden and unexpected failure to hold its charge effectively. Gradual battery deterioration is not covered by this warranty.

The **administrator** will decide the measurement method used to work out battery capacity, and whether to replace, repair or provide reconditioned or re-manufactured parts.

CHARGE PORT: External charging system parts, including the charge connector and cable, home charging dock and fast-charging port, photoelectric cells, mechanical or electrical failure caused by not maintaining or using the battery correctly, or parts failing as a result of being overloaded, power surges or abnormal use.

VEHICLES WITH LEASED BATTERIES: Some makes of **vehicle** have a separate battery agreement that means the battery is supplied and maintained under a non-ownership 'battery lease' agreement which covers the cost of repairing or replacing the battery. If **you** have one of these agreements in place, the traction battery pack is not covered.

ELECTRIC VEHICLES CONTINUED

MANUFACTURER GUARANTEE ON TRACTION BATTERY

This warranty does not cover **your** traction battery while it is still under the manufacturer's guarantee. Cover under this warranty will not start until the manufacturer's guarantee ends.

We will pay labour costs that are necessary to repair those parts, in line with the repairer's warranty labour rate. Actual repair times will be limited to those in the latest Glass's Guide Institute of Chartered Mechanical Engineers (ICME) manual or the manufacturer's recommended repair times. With every claim you make, you must provide a VAT receipt from the repairer, who must be authorised to carry out the repair.

8. If more than one part has failed at the time you contact the administrator, it will be dealt with as one claim.
9. This warranty is valid for breakdown in the United Kingdom (which includes Great Britain and Northern Ireland), the Channel Islands and the Isle of Man.  - J** Any loss, damage or failure which a qualified engineer appointed by the administrator thinks could have been avoided or was totally or partly caused by a lack of maintenance.
 - K** Any damage to non-covered or excluded components whether caused directly or indirectly by any covered repair.
 - L** Water ingress (including damage to covered parts caused by water).
11. This contract shall be governed by and construed in accordance with the laws of England and Wales. Any and all disputes arising in relation to this contract shall be submitted to the exclusive jurisdiction of the English courts.
 12. Nothing in these conditions will reduce your statutory rights relating to faulty or mis-described goods. For further information about your statutory rights contact your local authority Trading Standards Department or Citizens Advice Bureau.
 13. If your claim is valid, we will pay for fault diagnosis charges subject to a maximum of £75 per claim including VAT or one hour of labour, whichever is lower.
 14. The period of the warranty is as detailed in the Validation Certificate. It should be noted that in the absence, for whatever reason, of the standard manufacturer's warranty period, the start date and expiry date of this warranty will remain unchanged from that detailed in the Validation Certificate. Additionally, if the warranty starts earlier than the date detailed in the Validation Certificate, because the manufacturer's warranty has expired earlier on mileage, then the expiry date of this warranty shall be earlier and reflect the period of warranty purchased/provided.
